

Industry Data Catalogue

The Industry Data Group's role is to build and sustain high quality information services that support the Australian dairy industry.

Accessing Data & Reports

Most of the existing reports can be downloaded from the Dairy Australia website dairyaustralia.com.au. Additional reports or more granular data might be available on request. Custom data extracts can be requested from the Industry Data Group.

Contact Information

For the most efficient response to specific requests, please email our service desk directly idsupport@dairyaustralia.com.au

If you have any questions or want to discuss the details of your request before submitting, please contact Chris Anttila chris.anttila@dairyaustralia.com.au or +61 3 9694 3757.

Data Catalogue

Most of the reports and data listed below are available free of charge to all Australian dairy industry stakeholders. Some reports or additional levels of detail are available only to dairy processors who participate in Dairy Australia data sharing programs. These comprehensive sources of dairy production and sales information constitute service unique to Dairy Australia, established through close cooperation with the industry. Dairy processors who are interested in benefiting from data sharing with Dairy Australia should contact the Industry Data Group for more information.

Sales information

Domestic sales

Domestic, Sales, Monthly, Categorical, Detail: High

Data

The Dairy Australia domestic sales database includes monthly wholesale data for important dairy categories such as milk, butter, cream, cheese and yoghurt. The data contains important dimensions such as sales channel, segment, pack type/size and state.

Source

The domestic sales database collects and pools data from participating dairy manufacturers in Australia.

Access

The Dairy Australia Drinking Milk Sales Report.

Product information

Milk production

Domestic, Production, Monthly, Detail: Medium

Data

The Dairy Australia Milk Production database includes monthly volume data for protein, fat and litres of raw milk picked up from suppliers. The data contains pickup states and regions.

Source

The milk production database collects data from participating milk processors in Australia, Levies Revenue Services and the State Dairy Authorities.

Access

The Dairy Australia National, Victoria and New South Wales Milk Production Reports.

Dairy manufactured production

Domestic, Production, Monthly, Categorical, Detail: Medium

Data

The Dairy Australia manufactured production database includes monthly production data for important dairy categories such as butter, butteroil, SMP, BMP, cheese, WMP and whey powder from 2000 onwards.

Source

The manufactured production database collects and pools data from participating dairy manufacturers in Australia.

Access
